

TriSorter Recycling System Retrofit

A waste and recycling system that directs resident materials into industry standard recycling, organic or waste containers using the existing chute on their floor - making recycling AS CONVENIENT as garbage disposal.

SYSTEM BENEFITS

Adds Resident Convenience

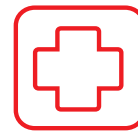

Easily Retrofitted

Organics Ready

Reduces Operating Costs

Improves Building Hygiene

Reduces Building Labor

Increased Building Value

Preserves Common Areas

Reduces Pests

ADVANCED DESIGN

- ▶ Latest in environmental technology
- ▶ Flexible programmable components
- ▶ Energy efficient LED lighting
- ▶ Monitoring system integrated
- ▶ Manufactured in North America
- ▶ Contributes to LEED® certification
- ▶ Fastest resident response time
- ▶ Simple control interface for easy use
